THE BARKER AND HENTHORN BAT TLE .- The most reliable account of the bloody fight between the Barkers and Henthorns, noticed last week, is this:

One Eli Henthorn was drafted some fonths ago, and failed to report. The Barkers concluded to take him, and went o the house of another Henthern to find him, but he was not there, when they fell to quarrelling with this Henthorn. Henthorn's story is, that one of the Barkers then commenced stabbing him. The Barkers say Henthorn shot Barker be fore Barker attempted to stab him. Another Barker engaged in the fight, and also another Henthorn. The result was that one Barker was shot through the breast and another through the shoulder, both balls probably penetrating the lungs. One Heuthorn was stabbed several times in the back, laying bare the spine in two or three places, and another was shot through the arm. One of the Henthorns also used a maul to some purpose on two Taking eight recruits to Marietta 115 00 or village, shall make the necessary proof the Barkers.

1865. Spring and Summer 1865. Facts About the 7-30s-The Advantages they offer.

THEIR ABSOLUTE SECURITY,-Nearly all active credits are now based on Government securities, and banks hold them as the very CLOTHING HOUSE best and strongest investment they can make lf it were possible to contemplate the financial failure of the Government, no bank would be any safer. If money is loaned on individual notes or bond and mortgage, it will be payable in the same currency as the Government pays with, and no better. The Government never has failed to meet its engagements, and the national debt is a first mortgage upon the whole property of the country. While other stocks fluctuate from ten to fifty or even a greater per cent, Government stocks are always comparatively fism. Their value is fixed and reliable, beyoud all other securities; for while a thou-sand speculative bubbles rise and burst, as a rule they are never below par, and are often

Its Liberal Interest, ... The general rate of interest is six per cent, payable annually. Tals is seven and three-tenths, payable semiannually. If you lend on mortgage, there must be a serching of titles, lawyers' fees, stamp duties and delays, and will finally have returned to you only the same kind of money you would receive from the Government, and less of it. If you invest in this loan you have no trouble. Any bank or banker will obtain it for you without charge. To each note or bond are affixed five "coupons" or interest tickets, due at the expiration of each successive half year. The holder of a note has simply to cut off one of these coupons, present it to the nearest bank or Govof which we will make to order in the latest style and best manner.

TO WHOLESALE BUYERS,

To whole we will make to order in the latest ernment Agency and receive his interest; the note itself need not be presented at all. Or a coupon thus payable will everywhere be equivalent, ween due, to money. If you wish to borrow ninety cents on the dollar upon the We would ask a careful examination of our notes, you have the highest security in the stock of Clothing and Piece goods. The in-crease in our business the past year has ena-will bring within a fraction of cost and interest at any moment. It will be very handy to have in the house.

IT Is CONVERTIBLE into a six percent goldbearing bond. At the expiration of three years a holder of the notes of the 7.30 Loan has the option of accepting payment in full or of funding his notes in a six per ceut goldinterest bond, the principal payable in not less than five, nor more than twenty years from its date, as the Government may elect. These bonds are held at such a premium as to make this privilege now worth two or three per cent per annum, and adds so much to the interest. Notes of the same class, issued three years ago, are now selling at a rate that, fully proves the correctness of this statement. ITS EXEMPTION FROM STATE OR MUNICIPAL TAXATION .- But aside from all the advantages we have enumerated, a special Act of

per annum, according to the rate of taxation

in various parts of the country.
IT IS A NATIONAL SAVINGS BANK.-while this loan presents great advantages to large capitalists, it offers special induc-ments to investment of small savings. It is in every way the best Savings' Bank; for every institution of this kind must somehow invest its deposits profitably in order to pay interest \$5.00 to \$10 and expenses. They will invest largely in 3 00 to \$10 this loan, as the best investment. But from the gross interest which they receive, they do 4 00 to \$6 must deduct largely for the expenses of the to depositors is 5 per cent, upon sums over \$500. The person who invests directly with with Government will receive almost 50 per cent, more. Thus the man who deposits \$1000 in a private Savings' Bank receives 50 dollats a year interest, if he deposits the same sum in this National Savings' Bank he receives 73 dollars. For those who wish to find a safe, convenient, and profitable means of investing the surplus earnings which they have reserved for their old age or the benefit of their children, there is nothing which pre-sents so many advantages as this Nationa
